

## Retirement Planning

Whether you're just getting started or nearing retirement, it's important to save, invest and plan for your future. When you retire your income will shift from an employer-provided paycheck to other retirement income sources.

Understanding your estimated income from your savings and pension plans, Social Security, other personal income and retiree medical expenses can help you envision your potential total retirement income.

Review the overview, planning and at retirement sections below to learn more.

## At Retirement

*When you're ready to retire, we're here to help at every step.*

Once you are ready to retire, make sure you understand what happens to your benefits after you leave the company. Some of your retirement benefits have specific deadlines, so pay particular attention to the required action steps and completion dates to prevent any unnecessary payment delays. Consider:

### Resources

- One-on-one financial consultation
- Northrop Grumman Benefits Center at 800-894-4194

## Understanding Pension Estimates

Pension estimates can be very detailed and complicated. Plan to start gathering your pension information well in advance of your actual retirement date. Here are a few pointers as you review your estimates:

- It's important to model your pension benefits at least a year prior to beginning your pension payments. Completing the pension estimates in advance also helps prevent retirement delays in case you need to locate any required participant information.
- Understand all available optional forms shown on your estimates to help you decide how you want to receive your payment.
- Note that reductions usually apply to convert your accrued pension to optional forms of payment that cover joint & survivor scenarios, or have certain death benefit features.
- Confirm the information for your designated beneficiary(ies).

## Discover the Keys to Application Success

---

- If you are within 90 days of retirement, you can request access to a personal Retirement Benefits Coordinator (RBC) through the **Northrop Grumman Benefits Center**. This can help reduce any surprises.
- Understand your potential longevity needs, including providing benefits to your loved ones. The Retirement Analysis tool can show you an estimate of joint & survivor scenarios.
- Test your retirement plans with sensitivity analysis from the Retirement Analysis tool to help ensure you're fully prepared to meet your essential needs. Establish a plan for unexpected emergencies, cost of living increases or high inflation periods.
- Designate your beneficiaries for your retirement benefits in the election forms.
